

CPD EVENT INVITATION FOR GENERAL PRACTITIONERS

TOPIC

GP Palliative Shared Care Orientation Seminar

Presented by Palliative Medicine Specialists and
program GP Advisors

LEARNING OUTCOMES

At the completion of the seminar, participants will be able to:

- Implement the GP PSC program to provide palliative care, in collaboration with Specialist Palliative Care Services, for patients in a community setting
- Describe the components of GP care planning and review of patients receiving GP Palliative Shared Care
- Assess and manage physical symptoms and psychosocial needs of adults with a life limiting illness or who are dying.
- Discuss Advanced Care Directives and Clinical Planning for End of Life to enhance the safety and quality of patient care.
- Describe the clinical management and considerations for patients during the terminal phase, and following death, in community settings.
